About Us :

Nanoplastia is a hair treatment that uses nanotechnology to deeply nourish and straighten hair, offering a smoother, shinier, and frizz-free look without the use of harsh chemicals like formaldehyde. It's considered a safer and more natural alternative to traditional straightening methods.

KEY ASPECTS OF NANOPLASTIA:

Technological Approach:
Nanoplastia utilizes tiny nanoparticles to penetrate the hair shaft and deliver essential nutrients, repairing damage and restoring elasticity from the inside out.

Chemical-Free Formula:
Unlike some other hair treatments, Nanoplastia is typically formaldehyde-free, making it a safer option for those seeking to avoid harsh chemicals.

Long-Lasting Results:
The treatment can provide frizz-free and smooth hair for several months with proper aftercare.

Versatile for Various Hair Types:
Nanoplastia is suitable for a wide range of hair types, including curly, wavy, dry, and chemically treated hair.

Focus on Hair Health:
The treatment not only straightens hair but also repairs and strengthens the hair shaft, promoting overall hair health.

*No Colour Fadage

* Shiny, frizz-free and healthy hair.

* Same day wash, same day color.

BAYZILIAN PRO BOTOS(BOTOX) TREATMENT

1000 ML **MRP : 24,999/-**

The **"Bayzilian Botos(Botox)** Hair Treatment" is a deep-conditioning and repair process designed to revitalize dull, damaged, and frizzy hair. Despite the name, it does not contain the botulinum toxin used in cosmetic facial Botox injections.It is named "Botos(Botox) " because it works to "fill in" and smooth the hair fiber, giving it a fuller, more youthful, and revitalized appearance, similar to how facial Botox addresses wrinkles.

Unique Selling Points (USP) / Key Benefits-

Deep Internal Repair: It works like a "filler," infusing the hair fiber with nutrients to repair the cuticle, filling in cracked or broken areas of the hair shaft.

No Texture Change/Non-Straightening: Unlike some chemical smoothing treatments (like traditional Keratin), Hair Botox primarily focuses on repair and deep conditioning. It smooths frizz and enhances shine without permanently straightening or significantly altering your hair's natural curl or wave pattern.

Frizz Elimination & Shine: It is highly effective at smoothing the hair cuticle, which dramatically reduces frizz and environmental damage, resulting in hair that is silky, shiny, and much more manageable.

Increased Volume and Fullness: By filling in the damaged or thin spots on the hair shaft, it makes the hair appear thicker, fuller, and more voluminous.

Safe/Chemical-Free Formula: Most true Hair Botox treatments formaldehyde-free and use a natural, nourishing composition, making them a safer alternative for hair rejuvenation compared to treatments that use harsh chemicals to achieve a straightening effect.

BAYZILIAN
SERUM ILLUMINATOR
(HEAT PROTECTOR)

200 ML **MRP : 1,999/-**

Unique Selling Points (USP) / Key Benefits-

Immediate Chemical Damage Reversal : The product is highly concentrated and often marketed as a "chemical reverser" It's formulated to provide immediate relief and recovery for hair severely damaged by harsh chemical processes like coloring, bleaching, and straightening.

Multifunctional Protection: It offers a triple benefit by simultaneously acting as a treatment, a heat protector, and a pH balancer. This versatility ensures comprehensive care in one product, making it essential for post-chemical and styling routines.

Restores Vitality and Elasticity : Unlike basic serums that only provide surface shine, this formula is designed to penetrate the hair fiber to recover and restore the hair's natural elasticity and vitality, transforming brittle and rubbery strands.

Complete Anti-Damage System

It targets the main signs of damage through multiple claims:
Anti-Porosity (Seals the cuticle)
Anti-Breakage (Strengthens the structure)
Anti-Frizz (Smoothes the surface)High-Performance
Finish: It delivers a premium, "illuminating" effect, providing intense shine, softness, and smoothness without weighing the hair down.

1000 ML

BAYZILIAN GOLDEN HAIR SPA

USP : USE FOR ALL TYPES OF HAIRS

500 GM
MRP: 2099/-

Benefits: A Golden Hair Spa typically refers to a luxurious hair treatment that focuses on rejuvenating and nourishing the hair and scalp, often using natural ingredients like argan oil, and other essential oils. It often includes steps like steaming, scalp massage, shampooing, and applying hair masks. The goal is to improve hair health, reduce damage, and restore shine.

BAYZILIAN ARGAN OIL

USP : USE FOR ALL TYPES OF HAIR , SKIN & NAILS

50 ML
MRP : 1599/-

Benefits : Bayzilian Argan oil is known for its use in hair , skin & Nails products. Beyond cosmetics, it offers health benefits such as immune system support, cholesterol control, potential cancer-fighting properties, anti-aging effects, and wound healing. Research links argan oil to lower LDL cholesterol and better heart health.

100 ML
MRP : 1099/-

BAYZILIAN HAIR SERUM

USP : USE FOR ALL TYPES OF HAIRS

Benefits: By adding heat protection you are adding a protective barrier to the hair from the heated tool; you're also locking in moisture and helping to prevent frizz. These wonder products also help to keep the hair cuticle smooth, which in turn, creates hair that looks shinier, and feels silky soft

BAYZILIAN CLARIFYING SHAMPOO

USP : USE BEFORE ALL TYPES OF HAIR TREATMENT

1000 ML
MRP : 1999/-

Benefits : A clarifying shampoo also known as a cleansing shampoo generally works to remove build-up, impurities, and residues from your scalp and hair. Not only does this cleanse your scalp, but it also takes away the styling and pollutant build-up from your lengths, leaving you with hair that feels lightweight
